

2-day Workshop: “Smart but Scattered: Helping Children with Executive Dysfunction at Home and at School” (Course code: CA-17A-03)

Presented by:

Dr. Peg Dawson (EdD, NCSP) is an experienced clinical and school psychologist for more than 35 years. She is past president of the New Hampshire Association of School Psychologists and a renowned expert on intervention for executive dysfunction. Dr. Dawson co-authored several best-selling books for professionals and parents, including “*Smart but Scattered*”, “*Executive Skills in Children & Adolescents*”, “*Coaching Students with Executive Skills Deficits*”.

Course Description

Executive dysfunction is a major explanation for ADHD and ASD symptoms. In this workshop series, the revolutionary executive skills approach to helping children overcome these deficits and reach their potential will be presented.

What You will Learn

- Understand executive skills within the context of brain development
- Be able to identify how executive skills impact school performance & daily living
- Access to a repertoire of strategies to improve executive skills in students

1-day Workshop: “Coaching Students with Executive Skills Deficits” (Course code: CA-17A-04)

Course Description

Coaching is an evidence-based intervention strategy in which a coach (either an adult / peer) works with a student to set goals designed to enhance executive skills and lead to improved self-regulation.

What You will Learn:

- An overview of coaching and how it helps students improve executive skills
- Work with goal-setting process and understand how the key elements of coaching combine to form an effective intervention
- Present an array of coaching strategies aimed at students from primary to college level
