Citation: Kan, C. K. H. (1998). *A Structured and Systematic Ambulation Training for Cerebral Palsied Children in a Special Child Care Center Using the Principle of Conductive Education*. Abstracts of the 11th Rehabilitation International Asia and the Pacific Regional Conference (pp.32). Hong Kong.

This presentation will outline how ambulation training for cerebral palsied children is carried out in a Special Child Care Centre using the principles of Conductive Education. It will explain the Conductive Education principles as applied in terms of the current knowledge in motor control and motor learning using this program as an illustration.
