The 2019/20 year was full of difficulties and challenges for Hong Kong and the world. At SAHK, we continued our mission with one heart to deliver quality rehabilitation services and help integrate our service users into the community. As the Association's Chairperson, I am pleased to present the SAHK Annual Report for 2019/20.

# Strengthening Corporate Governance and Management

The Association stayed committed to maintaining strong corporate governance and comprehensive organisation rule in the best interests of our service users, the Association and the community as a whole. We pursued modern management and practices as a caring non-profit organisation and provided relevant services through the most cost-effective and efficient means. #### 行政總裁報告

協會一直緊貼社會及殘疾人士的需要,開創多項服務以持續發展殘疾人士的教育和福利,協助他們盡展所能,建立積極人生。回顧過去一年,2019冠狀病毒病來襲,確實為協會及服務帶來很大挑戰,幸然協會上下能團結一致,迎難而上,繼續盡心盡力履行我們對服務使用者的責任。

#### 財務管理

協會於2019/20年度整筆撥款服務的營運中 錄得約1,827萬元盈餘,主要原因是取得數 項新服務的營辦權,包括:新增兩隊「學趣 滿園~到校學前康復服務」,以及安泰訓練 中心及宿舍等。推算來年協會的財政將會 保持穩健,管理層會適時審視及為各項可 能出現的風險作妥善管理,以確保有足夠 資源執行各項服務計劃。

#### **CHIEF EXECUTIVE OFFICER'S REPORT**

The Association is committed to spearheading the facilitation of education and welfare for persons with disabilities to continuously develop their potential and help them establish a fulfilling life. Our services are tailored to closely match their needs as well as those of the community. Over the past year, we faced enormous challenges in delivering our services due to COVID-19. Fortunately, our determination to carry out our mission to support our service users was undiminished as the Association worked as one to overcome obstacles.

#### Financial Management

An important element of good governance is sound financial management and conscientious deployment of public funding. The Association strives to strike a balance between abiding by the principles of prudent financial management and continuously improving our services and delivering on the requirements of the "Best Practice Manual" mandated by the Social Welfare Department. The Association's Council includes the annual review of the Lump Sum Grant (LSG) Reserve and the Provident Fund Reserve as a regular item on its agenda. It sets the direction for financial management according to three objectives - to elevate staff members' work efficiency, improve the quality of existing services and prepare for future service development. To augment the retirement protection for our staff members, the Association used the Provident Fund Reserve to inject one-off voluntary contributions to staff members' Mandatory Provident Fund accounts. Other than regular financial audits, the Association also conducted revenue and staff salary audits in the past year to ensure compliance with relevant policies and procedures.

The Association reported a \$18.27 million surplus from the operation of services under LSG in 2019/20, mainly due to obtain the right to operate several new services, including two new teams for "FunLearn @ KG ~ On-site Pre-school Rehabilitation Services" and the On Tai Training Centre and Hostel, etc. It is anticipated that the Association will maintain a solid financial standing. The management team will duly evaluate and manage all potential risks to ensure adequate resources for implementing all service plans.

一直以來,協會十分重視人力資源管理及員工培訓,致力為員工裝備專業康復知識和能力,應對不斷演變的服務需要。本年度協會委派不同職級同事前赴世界各地交流學習,包括新加坡、日本、台灣、美國等地。職員的總培訓時數超過21,500小時。2019年6月,本人與副行政總裁羅陳瑞娟女士率領11位專業同工前赴澳門參與「康復國際亞太區會議2019」,合共發表九篇論文,與業界分享交流的同時,亦讓員工擴闊視野及汲取外國康復服務的工作經驗。

#### **Human Resources Management**

Human resources management and employee training have always been important to us. We endeavour to equip our staff members with professional rehabilitation knowledge and the capability to cater the evolving service needs. During the year, we sent staff members of different ranks to attend overseas exchanges and training in Singapore, Japan, Taiwan, the United States and other destinations. In total, our staff members undertook more than 21,500 hours of training. In June 2019, Deputy Chief Executive Officer Mrs. Louisa S. K. Chan Law and I led 11 professional staff members to Macau for the "Rehabilitation International Asia and Pacific Regional Conference 2019" and presented nine papers at the event. While exchanging insights with the sector, our staff members gained a broader perspective and learn from the experience of overseas rehabilitation services.

The Association will counter the ongoing impact of the pandemic through all available means, including centralised procurement, distribution, and inventory of anti-pandemic provisions to give staff members and service users the best-possible protection. We took the lead to apply anti-virus coating spray on our service units and vehicles from March onwards and recruited relief workers to clean and disinfect service units and stand in for staff members quarantined at home. To support our services, we released anti-pandemic information and home-based training for service users and their families through telecommunications, social and mass media. We maintained regular telephone communication with service users to understand their needs and provide suitable support. Through online videos and remote support, we helped them continue learning and training at home. In addition, the Association distributed 20,000 face masks to our staff members for personal use to cater their needs. In February and March, we issued a special allowance (in addition to the anti-epidemic allowance disbursed by the Social Welfare Department) to all staff members of our residential service units.

Over the past year, while the Association was fully engaged in tackling COVID-19, we did not neglect the development of our services. Our achievements were the result of everyone's hard work. Here I would like to express my utmost gratitude to all Council Members, Committee Members and Honorary Advisors, and all the dedicated trans-disciplinary and frontline staff teams who are full of vitality and talent, and have worked hand in hand with me. I remain committed to developing services that meet the needs of persons with disabilities, to let them shine and work together to achieve a fulfilling future.

#### Jockey Club Rehabilitation Products Rental Centre Opens to Meet Urgent Short-term Needs

Thanks to a \$18.01 million donation from The Hong Kong Jockey Club Charities Trust, we expanded the services of the Jockey Club Rehabilitation Seating Service Centre to establish Hong Kong's first large-scale Rehabilitation Products Rental Centre. The Centre offers a range of rehabilitation equipment and devices for rental to meet the short-term rehabilitation needs of the community. A mobile rehabilitation seating service, operating from a modified truck, is also in the pipeline. It will double up as a vehicle for conducting public education as well as staging exhibitions and talks to promote public awareness of maintaining healthy seating postures and spinal care.

中心專業人員正檢查歸還用品的狀態。 The Centre's professional staff member examined the returned equipment.

坊間雖有復康用品租賃服務,惟可選擇器 材種類不多,亦欠缺專業人員的指導及 完備的後續跟進服務。協會遂於2019年 10月設立「賽馬會復康用品租賃中心」,租 賃期及租金以每星期(七天)計算,其靈活 彈性能配合顧客實際的復康需要,例如: 於不同復康階段使用所需的復康用品;亦 可選擇先租用後購買等。同時,中心的義 肢矯形師/職業治療師會提供諮詢及評估服 務,為顧客建議及選配合適的復康用品。 職員亦會跟進使用者租用器材後的情況, 按需要給予支援。中心特別重視衛生安全 管理,並訂立嚴格標準和程序處理所有租 後歸還的復康用品,包括:全面清潔及消 毒、檢查及維修、重新包裝等,以確保用 品質素,令顧客加倍放心。

While rehabilitation products rental services are available in Hong Kong, the choice of equipment offered by those services is limited, and they do not provide professional guidance and thorough follow-up services. The Association set up the Jockey Club Rehabilitation Products Rental Centre in October 2019, offering equipment for rent calculated on a weekly (seven days) basis. Flexible terms are offered to accommodate users' needs. For example, they can rent different pieces of equipment to match their stage of rehabilitation, or they can choose to rent before buying. The Centre's Prosthetists & Orthotists / Occupational Therapists offer consultation and assessment services to ensure the best equipment recommendations and matching. Staff members will follow up with customers to check on their progress using the equipment and offer assistance when required. Hygiene safety management is upheld with stringent and high-standard cleaning of returned equipment, including complete cleaning and disinfection, examination, repair and repackaging, to provide users peace of mind.

#### 引入機械人科技 提升訓練成效

中風、脊髓損傷、腦創傷及其他先天或後 天神經肌肉疾病的患者往往因病患而基響 雙腳力量,不良於行,需要透過一連串訓 練助其鍛鍊肌肉,重新學習平衡和步態, 改善步姿。傳統的訓練方法是由治療師, 著患者步行,這對雙方而言均感吃力, 可持續的訓練時間亦較短。有見及此 會持續復健中心於2019年引入外骨骼機 腳,透過先進康復器材,讓有需要的病患 者得到更佳治療成效。

# Enhancing Training Effectiveness with Lower Limb Robotic Exoskeleton

Patients with strokes, spinal cord injuries, brain trauma, congenital or acquired neuromuscular diseases are often immobilised due to weakened leg muscles. They need training to regain strength and improve balance and gait. Traditional training requires manual support by therapists, which is too strenuous for long sessions of training. To counter this, the Association's Continuing Rehabilitation Centre introduced lower limb robotic exoskeleton to achieve better rehabilitation performance with advanced equipment.

物理治療師曾毅鋒先生於明報專欄介紹協會為中風患者而設的全面康復訓練,包括手法治療、外骨骼機械腳、希望之手等。 Physiotherapist Mr. Victor N. F. Tsang wrote in a Ming Pao article about the Association's comprehensive rehabilitation training for stroke patients, encompassing manual therapy, lower limb robotic exoskeleton, hand of hope, etc.

持續復健中心經理廖志恒先生及服務使用者詩欣接受 傳媒訪問,分享外骨骼機械腳康復訓練的成效。

Mr. Jordan C. H. Liu, Manager of the Continuing Rehabilitation Centre, and service user Sze Yan talked about the effectiveness of rehabilitation by using the lower limb robotic exoskeleton with the media. 外骨骼機械腳的價格及保養費用昂貴,因 此本地臨床應用仍未普及,排期需時,訓 練期亦較短,難以滿足病患者的長遠康復 需要。協會引入此嶄新科技,同時配合其 他手法治療,讓他們獲得持續而全面的康 復訓練,大大提高治療果效。 The robotic exoskeleton is fitted with multiple sensors to detect shifts of the centre of gravity and movement. The mechanical frame can support the full weight of the patient in a standing position to practise walking. It also records training performance data so therapists can help adjust training plans for individual patient. The robotic exoskeleton gives wheelchair-bound patients the sensation of walking, which not only gives them a psychological boost, but also mitigates the risks of renal, respiratory, cardiovascular and digestive issues from prolonged sitting. For patients who have residual capabilities to walk, the device can help them improve gait and balance, and to reduce risks of falling.

The cost of acquiring and maintaining exoskeleton devices is prohibitive. This leads to a long wait for the service and short training durations, not conducive to speedy rehabilitation. By adopting this innovative tool, the Association is able to combine it with other manual therapies to offer sustained, comprehensive and effective rehabilitation training.

詩欣(中)因脊髓內腫瘤而致下肢癱瘓,多年來一 直依靠輪椅代步,在外骨骼機械腳輔助下,讓她 重拾步行的感覺,同時平衡力增強,亦提升其訓 練的參與度。

Sze Yan (middle) has been paralysed from the waist down due to a spinal tumour. She feels the joy of being on her feet again after years of being wheelchair-bound. With practice, her balance has improved and she is more engaged in rehabilitation training.

#### 善用資訊科技優化管理 重建課程管理系統

協會早於2005年應用資訊科技,成功建 立「課程管理系統」(CMS), 把幼兒服務及 成人服務課程進行電腦化管理,為協會的 知識管理及協作平台奠下良好基礎。十數 年間,各服務穩步擴展,服務類型及單位 數目溢增,為更有效地管理服務使用者和 課程資料、提升運作和管理效能,以及透 過分析資料數據協助策劃服務開發,CMS 重建工程遂於2017年4月展開,並在2019 年4月順利完成。

重建的CMS規格設計,除了增強系統運作 的速度及穩定性外,同時改善用戶介面的 操控效能,更可應用於桌上或平板電腦。 此外,CMS亦提升了原有模組的內容及功 能,包括:學員資料、出席紀錄、幼兒評 估、幼兒訓練、成人評估、成人訓練、學 員工作配對、分析報告、在線提問及系統 管理。同時新增兩個模組:班別分組及班 別編定結果報告,以增強系統篩選及分析 功能。CMS標準化的操作流程,加上系統 數據分析及成效實證,有助協會策劃服務 開展和作出管理決策,確保能持續地提供 優質服務。

#### Rebuilding the Curriculum Management System with Information Technology

Our "Curriculum Management System" (CMS) was first developed in 2005 to computerise the curriculum management of pre-school and adult services. It was a solid foundation for our knowledge management and a collaborative platform. However, as our services steadily expanded and we provided a more diverse range of services in more units, we needed to restructure the CMS to more effectively manage information about service users and the curriculum, and enhance our operations, management and support service planning through data analysis. The restructuring work began in April 2017 and was completed in April 2019.

The restructured CMS operates at a higher speed, and is more stable. User interface is improved and formatted for both desktops and tablets. Existing modules for users' information, attendance records, pre-schoolers' assessments, pre-schoolers' training, adults' assessments, adults' training, job matching for users, analysis reports, online enquiries and system management have been upgraded. Two new modules have been added, for reports on forming classes, and groups within classes, to enhance the system's selection and analytics functions. The standardised operation of the CMS workflow and the system's analytics and effectiveness evidence is conducive to our service planning and management decisions and ensures we can continue to provide excellent services.

#### Gerontech and Innovation Expo cum Summit 2019

The Association took part in the 3rd "Gerontech and Innovation Expo cum Summit" held in November 2019, to showcase a range of innovative technology that supports rehabilitation. We were delighted to have been visited by Mr. Paul M. P. Chan, Financial Secretary; Dr. Law Chi Kwong, Secretary for Labour and Welfare; and Mr. Bernard Charnwut Chan, Convener of the Executive Council.

The concept of this exhibition was to showcase the latest rehabilitation technology of the 21st Century. The Association exhibited our newly introduced lower limb robotic exoskeleton that helps persons with stroke and spinal cord injuries stand erect for walking training. It was fitted with multiple built-in sensors to sense strength and movement when users shift their centre of gravity. It not only gives users the experience of using their feet to walk again, but also improves walking postures and balance to reduce the risk of falls due to poor walking gait. Rehabilitation training using the lower limb robotic exoskeleton can help reduce the risk of urinary, respiratory, cardio vascular and digestive health issues caused by users being sedentary. With the device, therapists can accurately review training data and adjust training plans to suit a user's progress timely.

協會的展覽攤位吸引不少人士駐足觀賞。 Our booth attracted the visitors' attention.

## Excelling in the Open Examination

Totally eight students from the Jockey Club Elaine Field School (JCEFS) and Ko Fook lu Memorial School joined the 2019 Hong Kong Diploma of Secondary Education Examination. The results were released in July 2019. JCEFS student Bao Chui Yiu, who is also Hong Kong athlete with disabilities, continued to pursue his dream of becoming a sports coach to help more persons with disabilities to excel in sports. He enrolled in the Diploma in Fitness and Sports at the Hong Kong College of Technology (HKCT). Chui Yiu's lower limb coordination and muscle strength were affected by cerebral palsy, so he must work harder than most people to train and stretch, but that did not stop him from pursuing his love of sports. He took part in the "2018 Asian Para Games in Indonesia".

Another JCEFS student Lee Nok Hei, who aspired to become a barista and have her own café since learning to make coffee and desserts in an Applied Learning class in Form Four, continued to pursue her goal despite not achieving the academic results she had hoped for. She was admitted to the Diploma in Western Catering course at HKCT. The stories of the two students' determination to achieve their life goals were reported in the media.

學生們的勵志故事獲得傳媒廣泛報道。 Our students' stories were widely reported in the media.

## 改編真實故事 與港台協作自閉症為題單元劇

香港電台電視部去年以自閉症為主題,製 作了一系列以真實個案改編的單元劇《星星 的孩子》,藉以增加大眾對自閉症人士的認 識,並為自閉症人士及其家人打氣。

製作團隊改編了協會「真色珍我」自閉症人 士支援服務的服務使用者經歷,並寫成其 中一集的劇本。編寫過程中,協會的專業 同工亦給予意見,而拍攝期間也借用了協 會青年發展平台及譚榮芬兒童發展中心場 景,務求呈現最真實一面。故事講述父母 發現兒子患上自閉症,爸爸後來亦被診斷 為高能力自閉症患者,因而從夫妻之間的 矛盾到養育兒子的分歧,帶出正視自閉症 譜系障礙患者的需要。

## Telling Real Autism Stories on RTHK

Last year, RTHK produced an anthology series, "Stories of Autism", based on true stories to raise public understanding of persons with Autism Spectrum Disorder (ASD) and to encourage them, as well as their families, to keep going.

The production team adapted one of the stories of the services users of our "True Colours" Autism Support Service, with input from the professional staff members. Besides, our Youth Development Platform and Tam Wing Fan Child Development Centre were used as settings to make the stories as realistic as possible. The story focused on the diverse needs of person with ASD by highlighting a couple's contradictory approaches towards the upbringing of their autistic son after the father was diagnosed as a person with high-functioning ASD, so as to bring out their needs.

透過單元劇,希望藉以增加大眾對自閉症人士的認識。 The series helped raise public understanding of persons with ASD.

長者及殘疾人士均會隨年漸長而令身體機能出現退化, 舌頭及咽喉肌力下降, 影響咀嚼功能, 常見徵狀包括吃喝時容易「濁親」、吞嚥後感覺有東西卡在喉嚨等。

協會專業團隊研發了「功能性進食運動」訓練,當中包括「舌頭轉移食物運動」及「吸啜運動」,以幫助不同患者維持舌頭及吞嚥能力。團隊並為這套「功能性進食運動」進行成效研究,邀請了12位社區長者及服務使用者進行為期八星期的訓練,發現逾六成參加者接受訓練後,最大舌頭力量能維持甚至上升,吞嚥能力有進步。協會邀請多家傳媒採訪,分享計劃成效,期望讓更多人認識有關訓練。

# Developing Dysphagia Exercises for the Community

Elderly or persons with disabilities often experience diminished functions as they age, such as reduced tongue and throat muscle strength known as dysphagia, which affects swallowing ability. The most common symptoms include oral spillage when drinking, choking and food stuck at throat area.

In order to relieve dysphagia, the Association's professional team applied their experience to develop 'Functional Eating Exercises' such as using tongue to manipulate food and sucking thick fluid via straw. They invited 12 elders from the community and service users to undergo an eignt-week training course. Afterwards a study found that 60% of the participants showed improved tongue strength and swallowing abilities. A number of media were invited to cover the results of the study to publicise the success of the training exercise, hoping to let more people know about the training.

### 協會研究獲不同媒體報導。

The results of the study were introduced by many media channels.

## 防疫在家 透過媒體發佈抗疫錦囊

2019冠狀病毒病於2020年初肆虐,幼兒中心及學校均採取階段式停課。在復課遙遙無期之際,協會專業團隊準備了多項因應不同程度及特性的幼兒而設的家居活動,協助他們與家長在家輕鬆延續訓練。當中包括EASE計劃的職業治療師團隊特地為專注力不足/過度活躍症學童精選的八個家居訓練活動,並邀請香港01親子版發佈。

另外,香港01親子版亦推出了「停課在家學」教學影片,邀請協會言語治療師梁翊嵐女士拍攝四集「中文補習班」,為幼兒及家長講授中文課及學習中文的秘訣,助孩子提升讀寫聽說能力、介紹親子伴讀以提升幼兒聽說能力,以及運用小遊戲讓幼兒認識更多口頭詞彙。

# Sharing Anti-epidemic Health Tips for Staying Home

The COVID-19 pandemic in early 2020 forced the suspension of classes at pre-school centres and schools. As class resumption was unlikely in the short term, the Association's professional team prepared a range of home activities suitable for pre-schoolers with different abilities and characteristics to help them with their parents continue learning at home. The occupational therapy team of Project EASE created eight home-based training activities for students with Attention Deficit / Hyperactivity Disorder (AD/HD). We invited HK01's Parenting Page (HK01) to publicise the initiative.

The HK01 also introduced "Learning at Home" teaching videos and invited the Association's Speech Therapist Ms Norberta Y. N. Leung to film four episodes of "Chinese Remedial Classes", through which she explained to pre-schoolers and parents the keys to teaching and learning Chinese, to enhance their abilities in reading, writing, listening and speaking. Parent-child reading materials were also recommended, as well as games to expand pre-schoolers' vocabularies.

我們的會徽 — 一個豎立的「立」字,具體顯示了引導式教育的一個基本理念;同時它亦代表了我們在德、智、體、群的樹立;更重要的是它背後表現「立己立人」(《論語 • 雍也篇》)的一份互相關懷仁者的精神。

OUR LOGO — The Chinese character " $\dot{\Sigma}$ ", meaning to establish, to stand tall, speaks to the fundamental purpose of Conductive Education that we embrace and our efforts to aid the moral, intellectual, physical and social development of those we serve, and more importantly, it embodies the kind and caring Confucianism spirit of "establish oneself and help others do the same" (Analects, Book V, Chapter 28: Yong Ye).

We advance in rehabilitation 卓越展能
